EXPERIENCE

CodSoft- Java Development Intern

Dec 2024 – Jan 2025

Tech stack: Java, OOP, Core Concepts

- Completed a Java programming internship at CodSoft, an ISO 9001:2015 certified software company.
- Worked on Java-based programming assignments covering core language concepts, OOP principles, and problem-solving.
- Translated programming knowledge into functional code delivery across assigned tasks and real-world projects.

AdMax India | Full Stack & Software Developer Intern

Jun 2026 - Present

Tech stack: React, Node.js, Express, PostgreSQL, React Native, Swift, Android (Java)

- Building and maintaining the full AdMax India SaaS platform across 4 modules — advertiser dashboard, admin panel, marketing site, and screen player system — handling both frontend and backend development.
- Developing cross-platform mobile applications for iOS (Swift) and Android (Java), enabling advertisers and admins to manage campaigns, screens, and billing on the go.
- Working on REST API design, database schema management, and feature development across the full stack — from UI components in React to Node.js/Express backend logic and PostgreSQL queries.

PROJECTS

FlowForge React · Node.js · Express · MySQL · Redis · BullMQ

- Rule-based workflow automation platform on async queue architecture — trigger → condition → action, executed asynchronously via Redis + BullMQ with retry and dead-letter handling.
- Backend: Node.js + Express with REST/Webhook/Cron listeners, Boolean rule evaluator, and job dispatcher.
- MySQL schema with foreign keys, workflow_id indexing, and status enums. JWT auth, rate limiting, encrypted secret storage.

ELEVARE React · Node.js · Python FastAPI · MongoDB · Groq · Llama 3.3

- AI-powered career discovery platform using OCEAN personality framework and Ikigai model as core recommendation logic.
- AI pipeline in Python FastAPI integrated with Groq API (Llama 3.3) — generates personalized career paths from user inputs.
- React/Vite frontend with multi-step assessment flow; MongoDB for persistent session and response storage.

AdMax India React · Node.js · Express · PostgreSQL · Razorpay · Maps API

- Hyperlocal SaaS advertising network — local businesses display ads on each other's TV screens based on proximity targeting.
- 4 modules: marketing site, advertiser dashboard, admin panel, screen player system polling ads every 10–15 seconds.
- Razorpay billing, Cloudinary media storage, Google Maps screen targeting, 8-table PostgreSQL schema, JWT auth.

EDUCATION

MIT ADT University, Pune

2023 – 2027

B.Tech(Information Technology)

CGPA: 8.43 / 10.0

SKILLS

Languages: JavaScript (ES6+), Java, Python, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Bootstrap, Vite

Databases: MySQL, PostgreSQL, MongoDB

Testing: Jest, TestNG, Selenium

Core: Data Structures & Algorithms, OOP, REST API Design, System Design, MVC

DevOps & Tools: Git, GitHub, Docker, Jenkins, Redis, BullMQ, Postman, VS Code

ACHIEVEMENTS

13 Certifications: Across Backend Dev, Test Automation, UI/UX, AI, Networking, and Data Viz — IBM, Coursera, Anthropic, Cisco, Salesforce, CalArts, UPenn. Avg grade: 95%+.

Founder, AdMax: Built and shipped 15+ Android applications as an independent software company across multiple domains.

Full-Stack Web Development: Built 3 production-grade projects (FlowForge, ELEVARE, AdMax India) with real SaaS architecture, LLM integration, and async queue systems.

Microsoft Azure Certified: Specializing in Azure cloud services and cloud deployment concepts.
